

## Seasons

Learn the names of the four seasons of the year in French!

English	French
Spring	Printemps
Summer	Été
Fall/Autumn	Automne
Winter	Hiver

All the above seasons are masculine.

Here's how you would say "in" [a season].

English	French
Spring	Au printemps
Summer	En été
Fall/Autumn	En automne
Winter	En hiver

Notice how "printemps" has an "au" to represent "in" while the others have "en". This is because "au" is used before words that are singular and in the masculine form and the first letter is a consonant.

"En" is used before words that are singular and are in either gender (masculine/feminine) and the first letter is a vowel (remember "h" is considered a vowel in French).
